

Back Pressure Regulator

Changing of Back Pressure Regulator Ordering Number and Scope of Delivery

Starting from July 2014, the pressure indicator (manometer) is included in the back pressure regulator delivery.

Back pressure regulator with 1-, 2-, 3-, or 4-channels are available. It is not upgradable in the field.

Except the overflow Swagelok fitting, the Swagelok fittings/ Serto connections for sample inlet and sample outlet(s) are not within the scope of delivery. The fittings are sold separately.

Please contact sales@swan.ch for more information.
