

High accuracy temperature sensor for use with SWAN instruments.

Specifications

Operating temperature: -40 to 100 °C
Operating pressure: max. 10 bar
Sensor type: Pt1000 (Class A, DIN EN 60751)

Shaft diameter: 6 mm
Shaft material: stainless steel 1.4404 (SS316L)
Mounting: hollow screw, M14

Order numbers: Swansensor Pt1000		A-87.038.3X1
Sensor cable length	1 m cable with end sleeves	1
	5 m cable with end sleeves	5
	10 m cable with end sleeves	6
	15 m cable with end sleeves	7
